

# Stainless Steel Washout Booths

WaterWorks Sink Systems Versatility meets necessity. Every shop, large or small, needs an industrial style sink wash for processing screens. This handy unit combines this need with many other convenient features. These stainless steel sinks are built for years of screen processing. Complete with welded drains and a sturdy construction these sinks will keep any screen room worry free. Every shop needs a place to dry and coat screens, a place for pin holding after exposure, and a registration grid for quick press set up.
