

EB-1000HX

SCREEN STENCIL DRYER

FEATURE

1. Drawer type structure provides independent operation. Screen stencil is horizontally put thus evenly dried.
2. Temperature adjustment and constant temperature functions are available. The customer can select proper temperature based on different period of stencil making.
3. Ventilator is built in to effectively remove dust thus the stencil will not get dirt before it dries.

PARAMETER

Max. screen frame size: 1000x800mm;
Wattage: 3KW;
Temperature range: ambient~70°;
Power supply: 220V/50HZ;
Dimensions: 900x1200x1000mm(LxWxH);
Weight: 150KG.
