

WX-7.5HP and WX-10HP

Application

Widely used in spray and coating, electronic, spin machine, toy, chemical, printing, food, medicine.

Scroll Air Compressor has a structure of precision, small size, light weight, low noise, low vibration, less power consumption, durability, air supply consistent and easy to use. It is the ideal compressor to replace the traditional micro - air compressors

Technical Details

MODEL:		WX-7.5 HP	WX-10 HP
Motor	CV (HP)	7.5	10
	KW	5.5	7.5
Volt./Hz		380/50/3	380/50/3
Air Output	M ³ /min	0,8	1,1
Working pressure	X0.1MP	10	7
	PSI	100 ~144	100 ~115
Noise		56	60
Cooling type		Air	Air
Control type		Automatic	Automatic
LxWxH mm	mm	850x650x1100	720x700x1200
Weight	Kg	250	310

SCROLL AIR COMPRESSOR

1.ENVIRONMENTAL FRIENDLY

Low noise, noise between 50-65 db.

2.ENERGY SAVING

Electricity saving & Low maintaining cost.

3.HIGH RELIABILITY

Orbit scroll wrap moving only, low vibration, high reliability.

4.HIGH DURABILITY

Output air containing less oil, no wearing parts.

5.COMPACT AND EXQUISITE

Small size, excellent air output, high efficiency;

6.ECONOMICAL

Save more money when compared with screw air compressor.
